Information About Telephone Service

Subscribers Will Find it to Their Interest to Familiarize Themselves with the Contents of These Pages

Exchange Service. Business service is furnished for use of subscribers and their employes only in their business and for such extra name users on the same premises as may be contracted for by the subscribers.

Residence service is furnished for the use of subscribers and their families only at their residences and for such extra name users on the same premises as may be contracted for by the subscribers.

Service Complaints. To report any irregularity in the service, ask for the Chief Operator who will answer by saying "Chief Operator," and report your trouble to her.

To report trouble when your line or equipment is out of order, report (from nearest telephone) by asking for "Repair Clerk." Give your exchange prefix and number and the nature of trouble, if known.

No liability for damage arising from errors or omissions in making up or printing the directory is assumed by the Company. Extraordinary precautions are taken to avoid errors.

Order to Move Telephone. If you wish to have telephone moved, write or telephone to the manager of the Exchange with which you are connected, giving telephone number, name and address; also new address and date you expect to move, at least fifteen days before removal is desired, *except on moves due between April 15th and June 1st and between September 15th and October 10th, at which two periods thirty days' notice is required.*

Identification of Employes. All employes of the Company whose duties require them to enter the premises of its subscribers for any purpose whatever are supplied with identification cards, each card bearing the photograph and name of the employe entitled to carry it. Any subscriber having the slightest doubt as to the identity or the right of the person representing himself to be an employe of the Company should inspect the credentials. **Beware of bogus collectors or inspectors.**

Long Distance Telephone Service

The information given below is for the purpose of explaining the various classes of Long Distance service furnished. A careful perusal of this matter will enable subscribers to apply the service most advantageously.

Station-to-Station Service

The term Station-to-Station service is defined as a connection between any two telephones (including private branch exchange switchboard operator) and does not contemplate the establishment of conversation between particular individuals or departments of private branch exchanges.

Under Station-to-Station rates a charge

for a message is made in all cases where a connection is established with the called station.

Liberal reductions are made between 8:30 P.M. and 4:30 A.M. on Station-to-Station calls where the day rate is 30 cents or more as follows:

Evening Rates:—Between 8:30 P.M. and 12 Midnight, **one-half** of the day rates.

ARCHITECTS, OWNERS AND BUILDERS

Call Our Engineers **FIRST** and Save Costly Alterations

The Extensive Use of the telephone in hotels, apartment houses, large buildings and large residences, makes it essential that in buildings of these types provision be made to carry the large number of wires necessary for furnishing telephone service.

In Smaller Buildings and residences the entire concealment of the telephone service wiring can be arranged for at a very small cost if included in the building plans.

If Some Arrangement is not included in the original building plans, it may be necessary to make extensive and costly alterations after completion of the building, in order to conceal the wires running through halls and rooms.

The Engineers of This Company will be glad at any time to give architects, owners or builders the benefit of their experience in such matters without charge.

Write the District Plant Engineer
at Evanston or Call University 9930

ILLINOIS BELL TELEPHONE COMPANY

Regulations—Continued

which has continued for more than twenty-four hours thereafter, an abatement of the contract charge shall be made for the period of such interruption.

The continuous use of a party line is limited to five minutes. Party line subscribers are necessarily associated on the line with others located nearest to them and using the same class of service. Mutual accommodations usual in public service of any kind, where two or more persons are jointly concerned, should be extended between party line users.

Where the service of a subscriber is temporarily discontinued and the telephone number is retained during absence on vacation, one-half the regular rental shall be charged, during such period, provided written notice of the temporary discontinuance of service is given to the Company in advance.

Bills are payable monthly, in advance, at the office of the Company. If not paid by the fifteenth day of the current month, written notice is mailed to the subscriber and service is discontinued within fifteen days thereafter. Telephone service will be reconnected when the bill is paid in full, together with the actual cost of material and labor used in reinstating the service, plus fifteen per cent for supervision; the total cost, however, not to exceed two dollars per station.

Measured service, where furnished, is billed on a monthly guarantee basis. Failure to use the minimum guaranteed number of messages in any month, or the use of messages in excess of such number, does not entitle the subscriber to any allowance in any other month.

One incoming line (one-way service) furnished only for each individual two-way flat rate line or two-way trunk line.

Not more than two joint users will be allowed on P. B. X. or individual line service and not more than one joint

user in connection with a party-line subscribed.

Four Party Service is furnished only where at least two subscribers within the limits of a single block apply for such service, or there is a vacancy on an existing circuit.

Two-party service beyond the established exchange area will be furnished only where *two* parties outside said area, but within one-quarter mile of each other, apply for service at the two-party rate.

Four-party service beyond the established exchange area will be furnished only when at least *three* parties outside said area, who are within a radius of one-quarter mile of each other, apply for service at the four-party rate.

Rural Service is furnished only where at least two subscribers are secured for each one mile of line built.

Ownership of Facilities

All facilities provided by the Telephone Company, including directories, remain the property of the Company and are subject to the following regulations:

Foreign Equipment.—No apparatus or appliance not furnished by the Telephone Company shall be attached to or used in connection with the facilities furnished by the Company.

Directories.—Telephone directories containing the listings of subscribers, issued from time to time by the Telephone Company free of cost, are and remain the property of the Telephone Company. They shall not be mutilated and shall be surrendered to the carrier who delivers the subsequent issue. No binder, holder or auxiliary cover except such as may be furnished by or with the consent of the Telephone Company, shall be used in connection with any telephone directory furnished by the Telephone Company.

Long Distance Telephone Service—Continued

Messenger charges incurred are to be paid even if desired conversation is not held.

Collect Calls. Collect Calls are Person-to-Person calls, the charges for which are "reversed"; that is, to be collected from the called station provided the charges are accepted by the person called.

Evening and Night Rates as described under Station-to-Station service do not apply to Person-to-Person calls, the rate being the same on these—either day, evening, or night.

To Make a Long Distance Call.

Call the local operator in the regular way and ask for "Long Distance." When the long distance operator answers, give her the name of town or city desired. If you wish to file a **Station-to-Station** call, notify her that you will talk with anyone who answers the telephone at the desired address. If you wish to file a **Person-to-Person** call, give the operator the name of the particular person wanted. In either case, furnish the telephone number desired (if known), otherwise give the firm name or the name and initials of the person under whose name the telephone is listed, and, if possible, the street address. Then give the number of the telephone from which you are calling and your name.

Requests for Charges. If a patron desires notification of the amount of the charge on his message, he will save time by so advising the operator at the time he gives his call. If the request for such information is not made until the completion of the conversation, unavoidable delay results while the operator obtains the rate and computes the charge.

Bills for Long Distance Service are made from the 16th of one month to the 15th (inclusive) of the next month, in order that they may be issued the beginning of each month.

Supervision by Private Exchange Operators. The long distance operator is held responsible for the supervision and timing of all messages and for the character of the service furnished. Supervision of connections by Private Branch Exchange Operators interferes with satisfactory service and such operators should not remain "cut in" on the line after the connection has been established.

Report All Complaints of Long Distance Service to the "Long Distance Chief Operator."

For Information not given above, concerning long distance service, call "Long Distance Information Operator."

Regulations

To establish credit an applicant who is unknown to the Company is required to make an advance payment for not to exceed three months' service.

Where the cost of installation is out of proportion to the exchange revenue it produces, the subscriber will be required to pay a reasonable proportion of such cost.

Following the acceptance of the Company of an application for service, the Company assigns a telephone number, but this number is not a part of the

contract and may be changed at any time at the discretion of the Company.

Under average conditions the Company requires ten days to arrange for and complete an order to install or move a telephone.

To guard against interference with the service unauthorized attachments with the telephone lines or instruments are prohibited.

For any complete failure of service, of which *notice in writing* has been sent to the Company's Local Office, and

Long Distance Telephone Service—Continued

Night Rates:—Between 12 Midnight and 4:30 A.M., **one-fourth** of the day rates.

Minimum "Evening" or "Night" rates, 25 cents.

In applying Day, Evening and Night rates, the time of day at the originating point shall govern.

The time at which connection is established governs the rate in determining whether the Day, Evening or Night charge applies.

If connection is established in one period and terminates in another, the rate in effect at the time the connection is established applies to the entire message.

Person-to-Person Service

Calls for particular individuals are accepted at a rate approximately **one-fourth more** than those quoted under Station-to-Station service, subject to the following regulations:

Orders for Person-to-Person service are accepted only under the condition that a partial charge (known as "**Report Charge**") will be made in the event the Company is unable to establish communication for any one of the following reasons:

The called party is not available, or refuses to talk, or refuses to accept the charges on a collect call.

The calling party is not available, or refuses to talk, or no answer can be secured from the calling station at the time the call is ready for completion.

On an Appointment Call that cannot be completed after the appointment has been definitely arranged for.

On a Messenger Call that cannot be completed after arrangements have been made to notify the desired party to come to the telephone.

No report charge is made, however, if a report covering the foregoing conditions is not given to the calling station within one hour from the time the call is filed (or within one hour from the end

of the period of stated delay, in those cases where the calling party is advised, when placing his call, that such is accepted subject to an anticipated stated delay.)

A Report Charge in addition to regular message charge is not made provided the call is completed on the day it is filed, or if it is carried forward and completed on the next day after it is filed.

In any case where a Report Charge applies, the minimum Report Charge is 5 cents and the maximum \$2.00—approximately **one-fourth** of the initial Station-to-Station rate.

No Person-to-Person rate shall be less than 15 cents.

To points where the Station-to-Station rate is 5 or 10 cents, a Person-to-Person call is accepted at the 15 cent rate.

The initial period on all Person-to-Person calls is three minutes. An additional charge is made for each additional minute or fraction thereof. On a 15 cent, 20 cent or 25 cent message the charge for each additional minute is 5 cents. On a 30 cent message the charge for each additional minute is 10 cents, and on all messages where the initial rate is 40 cents or more a charge equal to approximately **one-third** the initial rate is made for each additional minute or fraction thereof.

Appointment Calls. An appointment call is a Person-to-Person call on which communication is to be established at a specified time.

The rate for an Appointment Call is approximately **one-half** more than the Station-to-Station rate.

Messenger Calls. Messenger Calls are Person-to-Person calls requiring the use of a messenger, to secure a designated person.

The rates for Messenger Calls shall be the same as apply to Appointment Calls, plus any charges that may be required for the service of messengers.

When In Doubt, Use Long Distance

A business perplexity may be cleared up within a few minutes by a long distance telephone talk. When your next move depends upon the plans of some one in a distant city you can get the information desired, without delay, by use of the Bell lines. It saves time, money and worry to know exactly where you stand.

**Illinois Bell Telephone
Company**

Telephone Your Mother On Her Birthday

A LONG DISTANCE CALL to your mother on her birthday may mean more to her than the most elaborate gift. Mother loves to hear the cheery voices of her sons and daughters and to know that they have not forgotten her.

To have you with her on her birthday would be your mother's greatest joy, but if circumstances and distance forbid a visit, then call her by long distance telephone and let her hear your voice.

ILLINOIS BELL TELEPHONE COMPANY
BELL SYSTEM

One Policy - One System - Universal Service

Maintenance and National Service

NATURE is both the ally and enemy of the telephone. One of her forces—electricity—carries the voice of man afar. Others, as flood, tornado or sleet storm, can cripple communications in a large area through their devastating might.

Each pair of telephone wires in the Bell System is a pathway for reciprocal speech. When beaten down by the uncontrollable forces of nature, that pathway to fifteen million telephones is blocked, and none of the nation's voices can pass that way.

Reserve materials must be on hand, that storm damage may be repaired without delay. Adequate funds must be made available so that the cost of restoration may be met.

National telephone service is only possible through an organization capable of handling, on a nation-wide basis, the problem of maintenance as well as of operation.

Telephone Harrison 7401

DONNELLEY SERVICES

When several related lines of business work together intelligently to serve the public through their combined experience and resources — they can furnish more complete and more efficient service and at less cost than would be possible if each functioned independently.

The Reuben H. Donnelley Corporation has built up just such an organization. Whoever you are, we have some service that you can use.

Which of our services meets your needs?

Classified Telephone Directories

We publish Classified Telephone Directories in Chicago and suburbs, New York, Brooklyn, Cincinnati and the states of Illinois and Connecticut. Millions distributed free every year.

Donnelley's Industrial Directories

Two District Directories,—each containing classified lists of all manufacturers, wholesalers, jobbers, and business services in the major cities and towns of the district or market area over which it is circulated. Over 200,000 copies are distributed annually to manufacturers, wholesalers, jobbers, retailers, business services and institutions. These Directories are used in locating sources of supply and through them business people can place their products or services before the buyers in any of these districts.

Distributing Service

We distribute samples, books and advertising matter of every description by messenger in Chicago, New York and Philadelphia, securing receipts when desired. This Service is recognized as the most conscientious and efficient obtain-

able. We have a record of distributing all of the Telephone Directories in Chicago for over 20 years.

Donnelley's Red Book Buyers' Service

Donnelley's Directories are made the most complete buyers' information service in existence by Donnelley's Red Book Buyers' Service. This service is operated in all of our offices by trained research experts who have at their disposal extensive reference resources.

Donnelley's Buyers' Service answers over 100,000 inquiries *free of charge* annually, supplying accurate, impartial buying information regarding raw materials, machines, manufactured commodities, personal and business services of all kinds.

Direct Mail Service

We handle any and all phases of a Direct Mail campaign. Campaigns for the Manufacturer, the Wholesaler, the Retailer or the Individual. Market Analysis, Planning, Art Work, Copy, Printing, Facsimile Letters, Addressing and Mailing.

We maintain complete records of all automobile registrations in the United States and Canada, and can furnish accurate lists of all automobile owners selected by territory or by make of car.

How Many Telephone Orders Do You Receive Each Day?

There are hundreds of people using this directory daily as a Buyers' Guide. How many of them know you are in business? How few of them think of you when they want to buy the thing you could supply? Consider what it would mean to your business if even a few of these buyers would telephone to you when they want anything in your line. You can reach every one of these telephone subscribers through this Telephone Directory.

DO YOU KNOW ABOUT OUR COAL SERVICE BUREAU?

It is a known fact that one-fourth of the coal mined is wasted through failure to select the right kind and size of coal, best suited to give the most efficient results in each individual plant. Most people just order coal, without securing any definite information as to the proper selection for their individual need. It has always been the policy of this company to advise its customers in the proper selection of their coal. In order that we may extend this service to

all, we have added a COAL SERVICE BUREAU to our organization. This Service Bureau will give you any information desired on coal, heating apparatus, stokers, etc. free and without obligation. At your request we will send a fuel expert who is well informed on fuels and heating apparatuses, to assist you in selecting the proper size and grade of coal. This service will save you money, time and inconvenience.

WE ARE EXCLUSIVE DISTRIBUTORS
OF ALWART'S

Cheapest in the End for Hot Water, Steam
Boilers, Furnaces and Stoves
May We Serve You?

Anxious To Serve You

The telephone operator is just as anxious to give you prompt and accurate telephone service as you are to receive it. This interest is shared by employees in all other departments.

Illinois Bell Telephone Company

Is Your "Telephone Door" Large Enough?

If you could see that the door of your place of business wasn't large enough for your customers to get in, you'd be certain to enlarge it or to open another door, wouldn't you?

How about your "telephone door"? Is it sufficient to take care of the ever increasing number of "telephone buyers" or are some of them kept out of your place of business and their patronage diverted by the oft repeated "busy" signal?

Owing to the convenience of buying by telephone many patrons will enter your establishment through your "telephone door," Mr. Business Man, if you but make it easy for them to do so. Don't you think it will pay you to know beyond doubt whether your "telephone door" is always open or whether it is being "slammed in the face" of your customers—present and prospective?

We will gladly study your requirements if you desire.

Illinois Bell Telephone
Company

Reach Everywhere via Bell Lines

CITY boundaries and state lines are no barriers to the long distance telephone, which reaches more than 70,000 communities.

THE problem of the Illinois Bell Telephone Company to-day is the one of growth. To take care of demands for new service we must build new plant constantly and this requires new capital in large amounts. To obtain such capital requires assurance of satisfactory return.

In the Bell System are more than 15,000,000 telephones connected for service by 35,000,000 miles of wire. We stand ready, day or night, to put your home or office telephone in connection with any one of these. Long distance is the modern, efficient way.

ILLINOIS BELL TELEPHONE COMPANY

BELL SYSTEM

One Policy - One System - Universal Service

Co-ordination

FROM fragments, isolated and small, science can reconstruct the great creations of nature. A fossil bone reveals a race of giant lizards. A fern frond embedded in limestone tells of a prehistoric forest. A skull dug from a bed of a river clay records whole chapters in human history.

But rarely can man's handiwork, composite in its elements, be thus imagined from any of its parts. Considered alone, a tiny carbon granule from the telephone transmitter cannot even hint of the complex instrument. Only as part of a co-ordinated mechanism has this littlest unit its full significance.

The telephone needs of the nation require a service national in scope and operation. Men, materials and money on a vast scale are essential. Practical co-ordination of the numberless human and mechanical agencies indispensable to the service is possible only through a nation-wide organization. This the Bell System provides.

YOUNG WOMEN

TELEPHONE OPERATING is a desirable occupation. The work is permanent, interesting and near home. Our operators are well paid. They like their work and associates. Vacations (with pay) are given each year. A liberal Benefit Plan is provided.

Come to the Telephone Office and Talk It Over with the CHIEF OPERATOR

ILLINOIS BELL TELEPHONE COMPANY

SPEAK DISTINCTLY

When using the telephone speak
distinctly, with lips not more than
one inch from the mouthpiece. Do
not shout.

Illinois Bell Telephone Company

Keep in Touch with Home

WHEN business takes you away overnight or for a longer time, it is a comfort to know that you can reach home quickly over Bell long distance lines no matter how far away you may be.

***D**URING the past few years much of the telephone plant in Illinois, originally erected at pre-war costs, has worn out or been outgrown, and has been replaced at post-war prices for material and labor. This has added greatly to the average investment per telephone.*

To keep the family informed of your whereabouts is a sensible precaution. To talk to them by long distance telephone each day while absent is a joy both to you and to them.

Station-to-station service is especially adapted to such calls and the rates are about 20 per cent lower than for person-to-person calls.

ILLINOIS BELL TELEPHONE COMPANY

BELL SYSTEM

One Policy - One System - Universal Service

Call the "Home Folks"

WHEN you reach your journey's end, call home by long distance telephone and let wife, husband, mother or father know that you have arrived safely. It will relieve the anxiety for the safety of travelers which is always felt by their loved ones.

REGARDLESS of higher-level costs of materials and equipment, the Illinois Bell Telephone Company must continue to erect new buildings, equip them with new and modern apparatus and keep abreast of the demand for service. Each new telephone added increases the utility and the value of yours.

Use the inexpensive "station-to-station" service. Call "Long Distance," give the operator the number of the distant telephone, and tell her you will talk to anyone who answers. This service is about 20 per cent lower in rate than "person-to-person" service.

Evening and night rates for station-to-station calls are still further reduced.

Station-to-Station Calls

—meet almost every requirement of Long Distance telephone service and the rates are about 20 per cent lower than for person-to-person calls. Evening and night rates are still lower.

Anxious To Serve You

The telephone operator is just as anxious to give you prompt and accurate telephone service as you are to receive it. This interest is shared by employees in all other departments.

Illinois Bell Telephone Company

186,000 Miles a Second!

THIS is the speed of the spoken word over a telephone line. Between two ticks of your watch your voice could be hurled nearly twice around the earth.

EVERY telephone added to our system during the past eight years has required an investment much higher than the amount represented by our investment for each telephone then in service. This condition will apply to each telephone added for many years in the future if present price levels hold.

Bell Telephone engineers have developed methods of using the electric current in the small quantities needed to carry the voice impulses over immense distances. These methods are at the service of the American public who use the long distance lines, probably with little thought of the patient work of inventors and researches of scientists behind their perfect performance.
